

Using this Template

1. Use File > Open to open this PDF in Illustrator, or your Preferred Adobe Program
2. Copy the Dieline to your Workspace on a new layer and label "FPO" (For Position Only)
3. Create your artwork on a separate layer labeled "Artwork"
4. When you are finished convert your text to outlines by selecting all (make sure all layers are unlocked) and selecting Type > Create Outlines in Illustrator. In Photoshop you can rasterize your type layers.

INSIDE

OUTSIDE

✦ Bleeds - If you want your image to extend to the edge of the card, a bleed of no less than 1/8" should be used.
